

# Marketing Materials & Packaging

**Individual cookie insert**  
(wax or clear)

**8.5 x 11 poster** (per order)

**Cookie flavor cards**  
(by request)

**2" Sticker roll**

**Medium box**  
(holds up to 18 cookies)

**Small box**  
(holds up to 12 cookies)

**Large box**  
(holds up to 24 cookies)

## Gold gift box

**Gold gift box**  
(holds 12, 18 or 24- 2 oz cookies)

**Deluxe cookie tray**  
(trays of 24, 36 or 50 2oz cookies  
with Hershey's nuggets)

# Easy Preparation

Packed in layers of  
120 refrigerated  
2 oz pucks (15lbs)

## Baking directions for pre-formed cookies.

The dough should be kept refrigerated. You can use parchment paper if you prefer, but there is no need to grease the cookie pan. **Make sure to preheat oven for at least 10 minutes prior to baking.** Cookie “pucks” should be pressed down slightly to soften shape.

**For convection ovens:** The cookies are baked at 300°F for approximately 18 minutes. We recommend that you bake for 9 minutes and then turn the tray around in the oven for the remaining 9 minutes.

**For standard ovens:** We suggest 325°F to 350°F for 15 to 20 minutes until cookies are golden brown. Again, turn the tray around halfway through the baking. **Cooking times may vary, depending upon the actual temperature of the oven.**

Allow cookies to cool on the tray before serving. Use spatula to remove the cookies from the tray. These directions should give you perfect cookies each time!
